

Services November 11 Take Place in Community Hall

Remembrance Day services under the auspices of the Gleichen Branch B.E.S.L. will be held in the Community Hall on Tuesday morning, November 11th, at 10 a.m. sharp, in the local clergy cooperation. All the people in the community are cordially invited to attend and join with us in commemorating our heroic dead.

After Remembrance Day ceremonies last year editorial comment came from scores of justifiably incignant editors regarding the lack of attention given to this statutory holiday by government bodies and industry alike.

With Remembrance Day again approaching and thousands of citizens across Canada preparing to attend memorial services, the Canadian Legion reminds many to add up the score.

It was just over two short years ago that the final shot in the recent conflict was fired. It is well for all to stop and think what will be our position today had we been on the short end of the Armistice term.

We wouldn't have any left to trouble today. There just wouldn't be any existing unions with the right to strike or bargain.

Everyone would work for "the party" or else there would not be any food coupons handed out to live on.

There would be no such thing as a free press; truth would be stifled, our literature abolished and in a generation our perspective considerably changed.

Our children would grow up in a school chanting the praises of Hitler. Fisher who would be their god. Children thus indoctrinated would eventually turn even against their parents.

No automobile would drive unless a party sticker was on the wind shield.

Our free churches would be closed. We would listen to music, only by so called Army composers.

We wouldn't have to worry about elections that would be all arranged for us.

There are a thousand and one other items that could be listed which would make our lives not worth living.

Today we have freedom and democracy as we live it. It might have cost the taxpayers many millions to buy this right; it also cost in two wars more than 200,000 young lives and well over 200,000 wounded bodies. That's a lot of life and a lot of suffering.

Surely it's not asking much that we give one day a year to revere their memory.

THE LAND OF THE FREE
(Experimental Farm Notes)
Thinking people will agree that fundamentally the land is the basis of the whole population. Basically there are three reasons why the earth's crust which supplies us with sustenance and comfort, should be different in ownership than the atmosphere which supplies us with oxygen. The present economic system is based on individual stewardship of land parcels and we have quarrel with this arrangement.

However, it does appear that some of those who own land (for a comparatively few years) ought to have the opinions about stewardship. They should realize that they have possession for but a few years at best so they need to take up their share of ownership. They need to recognize their full responsibilities to those who must use the land after they are gone.

For too much farm land is being exploited, if not wasted. A relatively small percentage is receiving proper stewardship. Soil fertility has been practically eliminated on some farms. There is no excuse for the neighbors of these farmers to every year contribute their full share to the local blizzards. Some irrigation farmers start on water, rather than moisture, and with weeds and insects are debauching their stewardship. In the ranching business some ranges have been ravaged by overgrazing, their producers impaired. Some operators (elsewhere they have been termed slothful husbandmen) are destroying what is not their own. There are people taking the progeny beyond the third and fourth generations. Generally speaking the information is available to you to correct this prodigality. Ignorance can

REMEMBRANCE BY W. E. SIEBER

With troubled hearts and saddened souls we've scanned Those distant lands where countless crosses stand; Where sleep in sacred earth our loved ones brave Who gave their all our land and homes to save.

Neath Africa's sun in burning desert sands, On fog-bound islands and in storm-swept lands, They bravely died as heroes died of yore.

They rode the clouds to grapple in the blue And proudly dared what seemed that none could do; They sailed the deep, defied a treacherous foe; At duty's call their feet were swift to go.

In battles fierce they faced the foe with scorn, Laid down their lives that new days might be born: That all who freedom love and peace embrace May build a better world with kindly ways.

The slaves' loud cry they heard from lands afar; With vision bright they followed freedom's star, In common bonds of one humanity Gave up their lives to set all mankind free.

Their deeds shall live so long as earth shall stand And man shall homage pay in every land: No idle words suffice their praise to sing, Ours is the task some sacrifice to bring.

Redeem their death by pouring from our heart Some blood and tears and bravely do our part; Rest not; nor linger all we won the peace And build a world in which all wars shall cease.

NEWS ITEMS OF LOCAL INTEREST

Miss Ethel Bates, daughter of Mr. and Mrs. Thomas Bates, underwent an operation in a Calgary hospital last week.

J. McMullen, who suffered severe injuries in a car accident recently is reported to be doing as well as can be expected in a Calgary hospital.

Work was to have been resumed on the recreation centre yesterday morning but the snow and cold weather prevented it.

Start Hampton who has been confined to the Bassano hospital with a heart attack for some ten days is now at the home of his son in Calgary. He will not be able to return to his duties at the Shoptite store until the first of December.

Mr. and Mrs. Allan Quennell left on Saturday night's train for Ontario to visit their son and see their new grand daughter which arrived recently. This is Allen's first visit to Ontario in 28 years and for sometime he has been eagerly looking forward to the trip. Mr. and Mrs. Quennell's friends were over at the station to see them off and bid their hand baggage with "Just married."

Miss Selma Sammons underwent an operation in Calgary last Saturday.

Perhaps there is no more convincing evidence of the healthy state of Alberta agriculture than the estimates compiled by thirty life insurance, trust and mortgage companies as compared with the mortgage debt in Alberta has declined 73 per cent since the end of 1937. The total amount as at the end of 1934 was \$137 million as compared with \$137 million owing in 1945 and \$137 million in 1937. Not only has the total debt decreased but a large number of farmers who own their farms, entirely free of debt has increased very materially.

The Athletic Club held a meeting last Thursday evening in the town office with a small attendance. Mr. Anderson occupied the chair and outlined the work to be done to prepare the arena for the coming winter. Edgar Taylor was recommended to act as caretaker pending the town council's approval. It was decided to clean up the weeds in the arena and have the iron leveling off in preparation for ice making when cold weather

is not used as an excuse. So-called land owners and land operators to be good citizens must become good stewards. Already public sentiment is beginning to say, "Thank you for your work lately."

arrived. A schedule of hours for skating and hockey are to be drawn up ready for use as soon as the rink is opened.

To be healthy and happy, people must fully occupied. This fact is emphasized in urging everyone to take up hobbies to occupy their spare time, if their normal work does not absorb them entirely. "Man may still in rare instances, earn his daily bread by the sweat of his brow, but actually only a small percentage of people use their full physical and mental capacities in their daily labor."

The usual pranks were pulled off in town Halloween and some damage was done to property to the chagrin of the owners. As usual the day after school buildings knocked over wheels, barrels, cans, wagons, etc., scattered about the streets and windows smashed. One property owner looking over the damage he suffered expressed as follows: "They come in and damage things like this and about a month's time they will be around again asking for money to help their hockey club. Well, they won't get any money from me this time."

ST. ANDREW'S CHURCH
Sunday, November 9th,
Morning prayer 12 noon,
Rev. D. A. Ford B. A., B.D., (Incumbent)

Registration of births is of more importance today than it has been, especially in a battle against the provincial department of public health. They are now necessary, not only as proof of age in such matters as family allowances, insurance policies and superannuation and pension schemes, but they are also required for identification purposes by Canadians seeking entrance to the United States. With this new importance of the birth certificate has come a surge of requests for registration of births. Unfortunately, had neglected the formality, if indeed there was any provision for it in the first place. Unfortunately, such registrations have been falsely sought by aliens not born in Canada as well as by persons who, for some reason, wished to establish false age and the formulation of plan for family allowances brought an unsatisfactory situation.

At the Dominion-Provincial conference it was made obligatory for all persons to produce proof, for registration purposes, the place and date of his birth and the identity of his parents, thus bringing the practice of falsifying birth records with Alberta vital statistics personnel.

Activities at The Gleichen School

Cadetettes or girl cadets were formed two weeks ago by a meeting in Miss Doyle's room, at the school. Mr. W. A. Jones explained to the girls what was expected of them. Their first meeting in the Community Hall found them very stiff at P.T. and quite bad at keeping together. Some exercises they take with the boys in sections and some alone. At present they are being taught foot drill by Billy Pothian; parts of a gun by J. C. Kilgus; P.T. by Constable Allen, and first aid by Matroo Hicks. The ages are from twelve to fifteen and sixteen to eighteen. The section leader for the former section is Shirley House and for the latter Betty Edwards. Mr. Jones hopes to have them ready for the inspection in the spring.

The Gleichen Junior Students Club wishes to convey thanks to all those whose assistance helped to make their Halloween a success. Thanks are especially due to Mrs. Hatton for supper in the kitchen, Miss Doyle for distribution of pencils and to Mr. C. H. Jones, Dan and Mrs. Roberts who judged the singing.

ALLIANCE W. O. N.
Secretary Gleichen Junior Students Club.

The Gleichen Junior Students Club gave a very successful party on October 30th in the Town Hall to which former members of the club and nine students were invited. Others present were Mrs. House and Mrs. Hatton. The new students Kitty Lou Engstrom, Edna and Jim Wallace. They were dressed in pajamas and sent out on a treasure hunt from house to house.

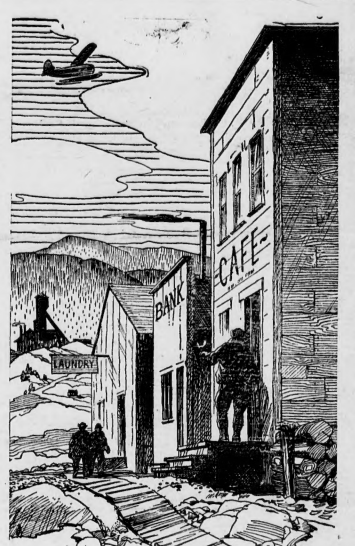

The next part of the evening was taken up by games, contests and the Halloween circus. Game prize winners were Miss Doyle, Larry Plante and Ken Denney.

There were many interesting costumes and the judges, Mr. Coleman, Mrs. Roberts and Mrs. Bates found it very difficult to choose the winners. David Murray dressed as a pirate walked with a jack-o'-lantern which was the prize for the boys. There was a draw between Beverly Anderson, Kitty Lou Engstrom and Adele Kilgus who dressed as a gypsy and received a china figurine. The winners were presented with their prizes by Anna Mathison who assisted by Larry Plante and Connie Hatton was responsible for the very well planned evening which was thoroughly enjoyed by everyone.

The lunch committee consisting of Miss Doyle, Frances Bates and Allen Wainwright served a very splendid lunch which was enjoyed immensely. Dancing followed lunch with Miss Doyle at the piano. After the party broke up with everyone saying what a wonderful evening they had enjoyed—Written by Adele Kilgus, age 15.

Uncomfortable sensations of warmth or cold which will occur to occupants of homes this winter in all probability can be blamed on the improper conditions of the air within the home. The temperature of air surrounding the body is just one of the seven factors in determining the pleasurable indoor comfort. Occupants of homes feel cooling in dry air with a temperature reading of 70 degrees that they do in moist air with the same temperature. The drier the air the faster the body is cooled by evaporation. For this reason occupants of homes feel more comfortable during the winter when moisture has been added to the heated air. Maintaining a reasonable humidity level should serve to prevent drying out of the mucous membranes which protect the throat and nasal passages from the creases and resistance to colds and infections and thus aid in bringing about improved indoor comfort conditions.

Behind cold, personal statistics very often can be found the story of how Canadian traders have reached into strange far corners of the world. In 1946, for example, Canada exported goods valued at \$430,980 to Iran, and imported products of that country to the amount of \$274,146. What do these figures mean? Across thousands of miles, Canada has sent automobile parts, iron tacks, gasoline and fuel stoves, lamps and radios, and what will be sold in the eastern

hazards, while we are buying oriental carpets for our homes, Persian lawns for our coats, and almonds and walnuts for our table. In spite of world trade.

Agriculture And Industry

THE POSSIBILITIES OF USING waste farm products for industrial purposes has for many years been a matter of interest to farmers and to scientists. Among the processes which have been developed are the distilling of industrial alcohol from wheat and other cereal grains; the manufacture of plastics from the protein in milk; and the extraction of oils from flax, sunflowers, and other plants, for the making of paints, varnishes and edible fats. There have been many other such developments, but although they may be very satisfactory technically, they are not always practical from the financial standpoint. While it is most desirable that waste or surplus agricultural products should be used, if at all possible, for industry, the cost of processing them must always be a highly important consideration.

Now No Surplus Of Food Grains

In a recent article on this subject, Dr. R. K. Larmour, one of Canada's foremost agricultural scientists, has drawn attention to the fact that enthusiasm for the development of industrial uses for surplus or waste agricultural products and agriculturists to overlook the practical financial aspects of the processes. In discussing this matter in Western Canada, Dr. Larmour said: "While it is fully realized that industries in the West are most desirable, it is also true that we shall be better off with none, rather than those which would have to fold up because they are not based on sound scientific and economic principles." At the present time, the world food shortage has cut down the problem of converting surplus grain crops to other uses, and it is now realized that if people are properly fed there will be no great surpluses such as accumulated during the last depression.

Scientists To Study Problems

There are, however, always waste products, which, could they be used in industry, would bring financial gain to the farmer, and also create employment. There are also certain crops, such as sunflowers, and flax, which farmers might grow solely for use in industry. At the new Prairie Regional Laboratory of the National Research Council of Canada, now being completed at Saskatoon, such matters will be studied and no doubt new industrial uses for surplus and waste farm products will, in time, be developed. One problem which will be studied is that of finding a new use for straw, much of which is now disposed of by burning. Sound industrial undertakings are unquestionably assets to any region, but the financial aspects should always receive careful and thorough consideration.

Save as much as 50% - Drink Postum

Tea and coffee are popular. Postum is better value than either. This wonderful, satisfying beverage costs as much less as 50 per cent less than other tea-time beverages.

Better for your health too! You can drink it and sleep like a baby. Postum is a caffeine-free, non-acidic beverage to upset you. Convenient - made right in the cup.

Canada Has New Variety Of Wheat

Insect-Resistant Type Available Commercially Next Year

The Ottawa Citizen says: By the development of Rescue, Canada's first insect-resistant wheat, Mr. A. W. Platt of the Dominion Experimental Farm at Swift Current has made possible more grain for the food markets and more money for the farmer.

This achievement is the latest of many that have opened successive chapters in the unfolding story of the west. An settler struggling out upon the prairie half a century ago, they needed a spring wheat maturing early enough for the short growing season. Two Dominion scientists, William Saunders and his son Charles, crossed Red Fife, which had been brought from Scotland to Upper Canada, with other hardy varieties from Russia and northern India, producing the early-maturing Marquis. Canada became a bread-basket for the world.

As the settlement spread northward, varieties of wheat were developed that ripened even more quickly, and that resisted rust and smut. But the coming of the combine caused wheat to be left longer in the field before being cut. Hatching in the stem, the wheat sawfly toppled the grain. The toughness of Rescué, which resists the greedy sawfly grub. Wheat that will offer more resistance to grasshoppers and to frost are the next objectives of cerealtists.

The new wheat will be available commercially next year. No cartels, trusts, combinations, or patents stand in the way. Scientists in the public service have given their country bonds of inestimable value.

ODD-COLORED DUCK SHOT NEAR WETASKIN

EDMONTON.—Add to the list of ornithological curiosities a handsome mallard. R. E. Lison, an Edmonton driver, shot the odd-colored duck while hunting near Wetaskin. It was of fair size but its feathers from head to tail, were a blend of white and sand.

COMPANING 1935 AND 1947 STANDARD OF LIVING

SEATTLE.—A University of Washington research report indicated that a typical Seattle family with a \$2,200 budget in 1939 would need \$3,500 now for the same standard of living—an increase of 74 per cent.

GEMS OF THOUGHT

PRIDE

Pride, the most dangerous of all faults, proceeds from want of sense, or want of thought.—Bacon.

Pride is seldom delicate; it will please itself with very mean advantages.—Samuel Johnson.

Pride is to the character, like the attic to the house—the highest part, and generally the most empty.—John Jay.

Pride is ignorance; those assume most who have the least wisdom or experience; and they steal from their neighbors, because they have so little of their own.—Mary Baker Eddy.

Men are sometimes accused of pride merely because their accusers would be proud themselves if they were in their places.—Shenstone.

If a man has a right to be proud of anything, it is of a good action done as it ought to be, without any base interest lurking at the bottom of it.—Sterne.

OTTAWA.—Canada's two new Arctic weather stations are well equipped and sending out reports four times a day. Reconstruction Minister Howe said here.

The first station, on the east side of Ellesmere Island at Eureka Sound, within 600 miles of the North Pole, was initiated by aircraft. The second and main station was established on Cornwallis Island at Resolute Bay near the western end of Barrow Strait, by a waterborne expedition. It is at about latitude 75 degrees north.

"LAZY HUSBAND" GETS TWENTY YEARS

SEATTLE.—Superior Judge Clay Allen sentenced Raymond Scott, 28, to a maximum of 20 years in the state reformatory for abandonment and non-support of his wife and twin children, calling it "the only remedy for the 'growing number of idle husbands'."

The letter "M" has varied only slightly in design from early Phoenician times to the present.

PRIDE

Pride, the most dangerous of all faults, proceeds from want of sense, or want of thought.—Bacon.

Pride is seldom delicate; it will please itself with very mean advantages.—Samuel Johnson.

Pride is to the character, like the attic to the house—the highest part, and generally the most empty.—John Jay.

Pride is ignorance; those assume most who have the least wisdom

The Brewing Industry of Alberta

Town & District

Born to Mr. and Mrs. C. Kilcup a girl, Nov. 4.

Bill Graves, a former resident of Gleichen for many years, but now living in Red Deer, accompanied by a friend spent Sunday in town visiting his sister Mrs. W. Varnell and his numerous friends. Bill is now a sergeant in the R.C.M.P. and has been located in Red Deer for the past couple of years and reports that place to be a bustling town. He and his friend had spent a few days hunting game birds near Brooks and stopped off in town while enroute home.

William John Little aged, 80 years, died at Eventide Home Saturday afternoon, where he had been a resident for the past year and a half. He was born in Illinois and had spent the past 24 years in Alberta coming to Gleichen from Medicine Hat. By occupation he was a farmer from which he retired in 1938. Funeral services were conducted Monday afternoon at 2 o'clock with Rev. W. E. Sieber officiating after which interment was made in Eventide cemetery.

Car thieves attempted to get away with a Gleichen car Saturday night but failed. Since there was no key in the car to turn the switch they tore the wires from the lock and tried to make the engine run by connecting them but failed. Another resident reports that not long ago his garage was entered but did not know if an attempt was made to take the car but a valuable rug was taken. Judging by the above experiences one should be sure to take the key out of the car and lock the doors.

These clean, self respecting people who do not believe that they perpetrate, or if they do, that this isn't noticeable are reminded in a bulletin that everyone perishes and that it is through perspiration that the body removes certain waste. Only the time honored reminder of the value of clean living clean skin and clean clothing is offered for those who would not offend.

By D. P. J. GREANEY, Director, Line Elevator & P.M. Service, Winnipeg, Manitoba

Training in Farm Science

Successful farming requires just as much science and skill as does the practice of medicine, dentistry, or any other profession. For this reason, training in farm science and sound farming experience are matters of real importance to the farmer of the future. No young man, who intends to devote his life to farming, can afford to ignore the value of agricultural training.

Agricultural Training. For young men, 16 years and over, sound, practical one and two-year courses in agriculture are offered at the University of Manitoba, Winnipeg; the University of Saskatchewan, Saskatoon; and at the Schools of Agriculture, Olds and Vermilion, Alberta. These courses extend from about the first of November to the end of March. They are designed for the specific purpose of training young men in practical farm operation. Instruction is given in all important phases of agricultural production (Field Crops, Livestock, Soils, Agricultural Engineering, etc.). In addition, ample opportunity is provided for the student to take part in well organized, co-operative and executive activities. The result is he returns to his farm a better farmer, a more useful citizen, and prepared to become a leader in his community.

Short Courses. This Fall and Winter, the various agricultural institutions in Canada are again offering a number of Short Courses in Agriculture and Home Economics. These courses provide the latest, practical information on special agricultural subjects such as Dairying, Horticulture, Poultry, Agricultural Engineering, and Home-making. They are designed, both in respect to time and cost, to meet the needs of farm men and women. Anyone interested in any of these courses should apply for further particulars directly to: The Director, Agriculture and Home Economics, University of Manitoba, Winnipeg; the Director, School of Agriculture, University of Saskatchewan, Saskatoon; The Principal, School of Agriculture, Olds or Vermilion, Alberta.

file with the undersigned solicitor, by the 1st day of December, A.D. 1947, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed on or brought to his knowledge.

DATED 5th day of October, A.D. 1947.

J. B. McGuire, K.C.,
35-55 Canada Life Building,
Calgary, Alberta.

Successful purchasers will have the right to take possession of their lands on March 1, 1948.

Each numbered parcel of land must be tendered for separately and terms of sale will be 25 percent cash and the balance with interest at 8 percent in four equal and consecutive annual instalments and accepted cheques to the amount of 10 percent of the land or must accompany each and every offer.

The highest or any tender not necessarily accepted.

Further information may be obtained upon application to G. H. Goodenham, Regional Supervisor of Indian Agencies, Calgary, Alberta, or W. P. P. Superintendent, Blackfoot Indian Agency, Glenora, Alberta.

The unauthorized insertion of this advertisement will not be paid for.

A. H. ROBY,
Director,
Indian Affairs Branch, and Resources,
Ottawa, October 15, 1947.

Did You Pay Income Tax For 1942?

If so, read this carefully!

The Government of Canada will repay the REFUNDABLE SAVINGS PORTION of 1942 Income Tax by March 31st, 1948. If you are one of those who have refundable savings a cheque will be mailed to you BUT—

Your correct present address is essential!

Correct addresses are available for most of those entitled to repayment, but a large number of taxpayers are constantly moving and others marry and their names change.

Cards on which to report changes of address or name are being sent to all households in Canada. These are being distributed at the present time. Additional cards are available either at your district Income Tax office or your local Post Office. Do nothing if you live at the same address and have the same name as in 1942.

If you are entitled to Refundable Savings on 1942 Income Tax and you have changed your address or name COMPLETE AND MAIL YOUR CARD AT ONCE!
